## CHRTIS <br> ED W ^RD

# COMPENSATION GUIDE <br> tar 

## Overview

Since 2017, Chris Edward Consulting (CEC) has engaged in ongoing conversations with key personnel, talent, hiring manager, and C-suite executives within the Video Conferencing, Digital Signage, Physical Security, Audio Visual, Building Automation Space.

The information in this 2024 Compensation Guide is based on data gathered by Chris Edward Consulting from sources including compensation and benefits professionals, industry conversations, and offer letters over the past (7) years.

The past couple of years we have seen a shift in the workforce. We had a year where people refused to settle for jobs that left them unhappy, and millions of Americans quit their jobs; the era has been coined as the "Great Resignation." A byproduct of this philosophical shift in the workplace has also resulted in the "Great Hiring" as companies seek to lever age newly available talent to meet their aggressive growth goals.

As the climate has changed dramatically over the last 3 years with what employees care about, and greater importance has been placed on seeking higher compensation and flexible working arrangements.

As a result, companies have begun to adapt to these changing workforce trends to attract and retain top talent. Today, we're seeing unprecedented difficulties in companies being able to recruiting talent.

Furthermore, technology specifically developed in these spaces have allowed organization sand their workforces to become more decentralized, with many companies embracing remote work to varying degrees with a high level of success.

While remote hiring is still away for companies to reduce overhead costs, the decentralization of the workforce along with the maturation of the hybrid work environment is resulting in a flattening of compensation across the country, with the delta shrinking between compensation in high-cost regions - such as San Francisco and New York, in comparison with other cities.

As companies adapt to the new trends, we've updated the structure of our compensation guide to reflect these recent changes. For example, we've added new data for the compensation of:

| Technical Sales | $\checkmark$ Marketing | $\checkmark$ Alliances $\quad \checkmark$ Sales |
| :--- | :--- | :--- |
| $\checkmark$ Product Mgmt. $\quad \checkmark$ Sales Ops $\quad \checkmark$ Channels |  |  |

... and for both individual contributors and leadership for the entire US.

It's no longer enough to be within the average salary range when offering compensation for potential hires. It's the benchmark that companies strive to be if they want to have an extensive candidate pool and hire rapidly to meet their growth goals.

For companies offering compensation below this comp guide benchmark, hiring top talent will likely take much longer, from a falent pool that will likely be much smaller.

Conversely, overpaying for talent may yield a larger candidate pool but at diminishing returns. Also, a big conversation now is salaries for remote employees vs. in-office/hybrid. A question many leaders must now ask themselves is, "If I am allowing someone to work remotely, do I need to pay talent what I pay someone in NY, or CA salaries?"

From analyzing our data and the successful placements with clients, you typically pay less for remote talent. Variations in the cost of living throughout the United States must also be considered when examining business costs.

This is where remote talent becomes appealing and helps with retaining good employees; however, there are pros and cons, and it depends on how your business is structured. At the end of the day, this is not a one-size-fits-all solution. This is a guide to help you in your decision-making and acquire the best talent.

Additionally, keep in mind when looking at the salary ranges that years of experience do not always equate to top talent. Sometimes the best talent will not always have the most years of experience, and therefore, you can not compensate them based on year experience, but what value they bring to the business. So that is where this guide will help with relation to the ranges from lowest to highest when thinking about what and how to compensate talent.

Competition for talent is fierce, and companies need to meet candidates' expectations if they want to scale rapidly. Flexibility and career growth are the biggest hot buttons to why candidates make a move.

There's a fine balance to navigating the ever-shifting compensation conversation, and CEC is here to help navigate those waters.

## Key stats

Companies that do not hire talent remote/hybrid decrease their chances to recruiting Top Talent by $84 \%$

For every 10 offers made, $53 \%$ are receiving counteroffers. Out of the $53 \%, 57 \%$ are accepting counter offers
$91 \%$ of CEC Clients who did make a remote hire said their talent pool to choose from was much wider\&stronger

Companies without a recruitment process significantly decrease their offer acceptance rate by $54 \%$

Companies that do allow remote/ hybrid work increase employee tenure by 1 year

For every 10 offers made, $53 \%$ are CEC Clients that used a 4 -step interview process with their story down, had a $92 \%$ success rate securing talent
